SECOM-D-277

3 July 1980

MEMORANDUM FOR: Director of Technical Services

VIA: C/PCS [redacted]
[redacted] DDO

FROM: [redacted]
Security Committee Staff

SUBJECT: Moscow Security [redacted]

REFERENCE: Memorandum to D/Logistics, from
[redacted] dated 30
April 1980; same subject (SECOM-D-196)

1. Action Requested: This is to confirm previous discussions requesting Technical Services Division provide the following D&E assistance in FY 1980.

a. That you assist State in the security packaging of sensitive materials being shipped to Moscow, including development and procurement of materials, training and other support as necessary.

b. Conduct an evaluation of the [redacted]
[redacted] and implement any improvements necessary within budget constraints. When satisfactory performance has been achieved, provide three prototype units for evaluation and on site use.

SECRET

25X1A c. Assuming currently projected field tests are satisfactory, develop/procure an improved model of [] and provide one unit for evaluation and on site use.

d. Provide COTR, contracting officer and needed administrative support for tasks assigned to OTS. (In accordance with established coordination procedures, 2420's will be initiated by ORD).

It is anticipated that additional tasks will be assigned in FY 1981 pending the outcome of the FY 1980 studies. []

25X1

25X1A 2. Background: The USSR Security Advisory Group (SAG) chaired by [] State Department, with representatives from State, CIA, FBI, NSA and DIA has been established under the Security Committee. The primary concern of this group is the security of the new Embassy complex currently being constructed in Moscow. In this regard, the SAG has identified equipment and research needs and the DCI, State and NSA have identified funds to cover expenditures for these items. The funds identified by the DCI have been transferred to a FAN Account which has been established at ORD for this purpose. Funds expended by OTS in support of this effort will be handled by the execution of a Form 1716. A detailed plan for the CIA RD&E position of this program has been prepared and been previously approved by you. The above requirements have been discussed with [] your staff, who is familiar with the details of this program. []

25X1A 25X1 3. Discussion: Referenced communication requested CIA's assistance in packaging security equipment for shipment to Moscow. The above needs are part of the equipment and research needs identified by the SAG and are included in the CIA RD&E program. []

25X1 4. Recommendation: That the Office of Technical Services provide the requested assistance. []
